

SPACE MOBILE

Make your own A Boy Called Hope Space Mobile

"My bed looks like it has been dumped in a galaxy. Imagine lots of glow-in-the-dark stars tacked to the ceiling and you'd be right. And I've got a hanging planet mobile that Big Dave, Mum's friend, bought me."

- 1) Colour them in, using as many bright colours as you like. Dan wanted a red rocket saying Hope 1 on the side. Why not write your name on it! Maybe even add glitter if you have it!
- 2) Stick them to card
- 3) Cut out the planets, stars, rocket and astronaut carefully or get an adult to do it for you
- 4) Cut a long piece of string. Put all your space shapes face down in a line and put the string on top of them. Use a small piece of sticky tape to secure each shape, starting at the top and working your way down the string until they're all stuck.
- 5) Dangle your new space mobile from the ceiling!
